Potential Return of Wealth Accelerator Multi-Currency Plan

Assumes that the Policy Currency is USD and the Premium Payment Term is 2 years:

The above example assumes no Policy Loan, no Partial Surrender, no change of policy currency, no policy split and no Incapacity Benefit has been paid and all premiums due have been paid during the Benefit Term. The above example is for reference only. Please refer to the Insurance Proposal of the Plan for actual premium and more details.

* Total Surrender Value is equal to 100% of Guaranteed Cash Value, plus Accumulated Dividends and Interest (non-guaranteed) (if any) and Terminal Dividend (non-guaranteed) (if any), less Indebtedness (if any). Accumulated Dividends and Interest means the aggregate of (1) the total amount of distributed Annual Dividend left with Hong Kong Life (if any); and (2) the total amount of interest accumulated on any distributed Annual Dividend left with Hong Kong Life (if any). Annual Dividend, the annual interest accumulation rate and Terminal Dividend are not guaranteed and may be changed from time to time. Past performance is not indicative of future performance. The actual amount payable may be higher or lower than those illustrated in the Insurance Proposal. Hong Kong Life reserves the right to change them from time to time. The Annual Dividend and / or interest withdrawn will no longer be accumulated as part of the Total Surrender Value and the Total Death Benefit of the Policy. The Total Surrender Value and the Total Death Benefit of the Policy will be reduced accordingly.

The total IRR at the end of 100th Policy Year is rounded to the nearest percentage and is not guaranteed. The actual total IRR at the end of 100th Policy Year may be higher or lower than that illustrated. The illustrated internal rate of return for surrender value is subject to a regulatory cap of 6.5% p.a. at the point of sale. As such, the non-guaranteed dividend(s) for Total Surrender Value are adjusted accordingly.

Multiple Premium Payment Term¹ for selection with Extended Life Protection

The Plan provides 3 choices of Premium Payment Term¹, i.e. 2 years¹, 5 years¹ and 10 years¹, with extended life protection until age 130 of the Life Insured. If the Policyowner chooses for a change of Life Insured², life protection will be extended to age 130 of the New Life Insured.

Additional Return

The Plan not only provides Guaranteed Cash Value, Annual Dividend (non-guaranteed)³ may also be distributed annually in terms of cash starting from the end of 2nd Policy Year. You can choose cash withdrawal or leaving it with the Policy for interest accumulation³ to meet your personal needs.

In addition, Terminal Dividend (non-guaranteed)³ may be payable at or after the end of 4th Policy Year when the Policy is fully surrendered by the Policyowner, upon the death of the Life Insured (provided that there is no named and surviving Contingent Life Insured who will become the new Life Insured) or upon Policy Maturity, whichever is earlier.

When the Policy is partially surrendered⁴ (including the partial surrender⁴ automatically triggered for the Incapacity Benefit⁵), Terminal Dividend (non-guaranteed)³ may be payable at or after the end of 4th Policy Year. The payable amount is equal to the Terminal Dividend (non-guaranteed)³ attributable to the reduced portion of Principal Amount⁶. Terminal Dividend (non-guaranteed)³ will not accumulate in the Policy.

Flexible Wealth Management to Seize Opportunities across Global Markets

- **Change of Policy Currency Option⁷**

Starting from the 3rd Policy Anniversary while the Plan is in force and the Life Insured is alive, the Policyowner can apply for a change of policy currency⁷ to change the current Policy Currency of the Policy to a different currency ("New Policy Currency"), including HKD, USD, RMB, AUD, CAD, EUR, GBP, NZD or SGD (subject to availability as determined by Hong Kong Life at the time of applying the change of policy currency⁷). This allows you to flexibly allocate your currency mix in line with market trends and to meet your personal needs, enhancing the potential for wealth growth. The Change of Policy Currency Option⁷ has a maximum limit of 1 time per Policy Year.

- **Policy Split Option⁸**

Starting from the 1st Policy Anniversary while the Plan is in force and the Life Insured is alive, the Policyowner can apply for a policy split⁸ to split the Policy to one separate new policy or multiple separate new policies ("Split Policy(ies)"), by transferring a designated portion of the Principal Amount⁶ of the Basic Plan of the Policy to each of the Split Policy(ies). This option can be used in conjunction with the Change of Policy Currency Option⁷ to appropriately address changes in your life planning. It can also be used in conjunction with the Change of Life Insured Option² to meet your wealth succession arrangement. The Policy Split Option⁸ has a maximum limit of 1 time per Policy Year.

- **Withdrawal Arrangement**

The Policyowner may make a one-off or regular withdrawal from the cash value of the Policy (including the Guaranteed Cash Value (if any), Accumulated Dividends and Interest (non-guaranteed)^{3,9} (if any) and Terminal Dividend (non-guaranteed)³ (if any)) according to his / her needs in order to fulfill the dreams like children's education and fruitful retirement, etc. However, the future cash value of the Policy will be reduced accordingly.

After the Policy has acquired a Guaranteed Cash Value, the Policyowner can opt for Partial Surrender⁴ after the 1st Policy Anniversary (applicable to 2-year Premium Payment Term) / 2nd Policy Anniversary (applicable to 5/10-year Premium Payment Term) to withdraw the Guaranteed Cash Value and Terminal Dividend (non-guaranteed)³ (if any) attributable to the reduced portion of Principal Amount⁶ of the Policy.

Comprehensive Wealth Succession Plan to Cultivate Wealth across Generations

- **Change of Life Insured Option²**

While the Plan is in force and the Life Insured is alive, the Policyowner may change the Life Insured² for unlimited times starting from the 1st Policy Anniversary.

- **Wealth Succession Bonus¹⁰**

To encourage you to outline your wealth succession planning, the Plan offers Wealth Succession Bonus¹⁰. In the event of change of Life Insured² be accepted and approved by Hong Kong Life while the Plan is in force, Policyowner will receive a one-off Wealth Succession Bonus¹⁰ which the amount equals to 1% of the Total Premiums Paid (subject to the maximum amount of HKD10,000 (or its equivalent in a currency other than HKD)). You can enjoy the joy of passing on your wealth as the policy can be continued while the Policyowner can also be rewarded.

- **Contingent Policyowner Arrangement¹¹**

To safeguard the wealth management planning, during the lifetime of the Life Insured and while the Plan is in force, the Policyowner can designate up to 3 Contingent Policyowner(s) and designate the sequence of Contingent Policyowner to become the new Policyowner of the Policy in the event of death of the Policyowner. The ownership of the Policy will be transferred to the Contingent Policyowner according to the specified sequence in the event of death of the Policyowner. If the Policyowner requests to designate a split of the Policy under Contingent Life Insured arrangement by allocating a designated portion of the Principal Amount⁶ of the Policy to multiple separate new policy(ies) ("Designated Policy(ies)") in the event of death of the Life Insured, for each Designated Policy, the Policyowner can designate up to 3 Contingent Policyowner(s) and designate the sequence of Contingent Policyowner(s) to become the new Policyowner of such Designated Policy in the event of death of the Policyowner.

In the event of the death of the Policyowner, the Contingent Policyowner of first in sequence will become the new Policyowner. If the Contingent Policyowner of first in sequence cannot become the new Policyowner, the Contingent Policyowner of second in sequence will be arranged to become the new Policyowner, and so on.

- **Contingent Life Insured Arrangement¹²**

To lower the impacts of any sudden events and ensure that your wealth can be passed on through generations according to your wishes, the Policyowner can designate up to 3 Contingent Life Insured(s) while the Plan is in force and the Life Insured is alive and designate the sequence of Contingent Life Insured(s) to become the new Life Insured of the Policy in the event of death of the Life Insured. Policyowner may also request to designate a split of the Policy by allocating a designated portion of the Principal Amount⁶ of the Policy to multiple separate new policy(ies). For each Designated Policy, the Policyowner can designate up to 3 Contingent Life Insured(s) and designate the sequence of Contingent Life Insured(s) to become the new Life Insured of such Designated Policy in the event of death of the Life Insured. The designated portion of the Principal Amount⁶ to be allocated from the Policy to each of Designated Policy must be specified by the Policyowner and is subject to the minimum amount or any other relevant requirements as determined by Hong Kong Life from time to time.

In the event of the death of the Life Insured on or after the 1st Policy Anniversary, the Contingent Life Insured of first in sequence will become the new Life Insured. If the Contingent Life Insured of first in sequence cannot become the new Life Insured, the Contingent Life Insured of second in sequence will be arranged to become the new Life Insured, and so on. This ensures the Policy continues and avoids termination in the sudden event of the death of the Life Insured.

In addition, the New Life Insured and the Previous Life Insured must be alive on the date of endorsement. The Policyowner should ensure that he/she has the mental capacity when giving such instructions, otherwise such instructions may be subject to challenge or become void. To better protect the Policyowner's rights, the application of the designation of the Incapacity Benefit Recipient should be signed by the Policyowner in the witness of an independent third party. In case of a dispute, Hong Kong Life reserves the right to withhold the payment of Incapacity Benefit until such dispute is resolved. For definition of Covered Illness, detailed terms and conditions of Incapacity Benefit, please refer to the policy document issued by Hong Kong Life.

2. Any Incapacity Benefit Recipient of the Policy as previously recorded and endorsed by Hong Kong Life shall be automatically cancelled and removed and no Incapacity Benefit will be paid when any of the following occurs (including where the application for the payment of Incapacity Benefit has been made by the Incapacity Benefit Recipient but any of the following occurs before the date of approval of such claim):

Important Statements

• Basic Plan

Risk

1. Exchange Rate Risk

You are subject to exchange rate risks for the Policy denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations.

2. Currency Risk

RMB is currently not freely convertible and conversion of RMB through banks in Hong Kong is subject to the rules, guidelines, regulations and conditions from the banks and / or Relevant Authorities from time to time. The actual conversion arrangement will depend on the restrictions prevailing at the relevant time. As RMB is currently not freely convertible and is subject to exchange controls by the Chinese government, RMB currency conversion is subject to availability and Hong Kong Life may not have sufficient RMB at the relevant time.

3. Risk from Exercising Change of Policy Currency Option

In case the policy currency is changed under the Change of Policy Currency Option, the adjustments on policy value may be significant (either higher or lower) and the amount of policy value after exercising the Change of Policy Currency Option may be considerably less than the total amount of premiums paid. Any future premiums will be adjusted if the Change of Policy Currency Option is exercised within the Premium Payment Term. The approval of application of Change of Policy Currency Option and the availability of currency at the time of exercising the Change of Policy Currency Option will be subject to the prevailing laws and regulations. Hong Kong Life reserves the right not to accept any application of change of policy currency and has the absolute discretion to determine the administrative rules and requirements in respect of change of policy currency from time to time. Hong Kong Life reserves the right to suspend and/or terminate the offering of Change of Policy Currency Option from time to time.

Please note that the Basic Plan under the New Policy after change of policy currency may or may not be the same as the Basic Plan under the Policy, subject to the eligible Basic Plan offered by Hong Kong Life at its discretion from time to time. Plan features, benefits and policy terms of the Basic Plan under the New Policy may be different from the Basic Plan of the Policy. You shall not purchase this product solely for the Change of Policy Currency Option. Please carefully evaluate the difference between the Basic Plan under the Policy and the latest basic plan available for exchange when you exercise the Change of Policy Currency Option and consider whether the latest basic plan suits your needs.

4. Liquidity Risk / Long Term Commitment

The Plan is designed to be held until the Maturity / Expiry Date. If you partially surrender or terminate the Policy prior to the Maturity / Expiry Date, a loss of the premium paid may be resulted.

The premium of the Plan should be paid in full for the whole payment term. If you discontinue the payment, the Policy may lapse and a loss of the premium paid may be resulted.

5. Credit Risk of Issuer

The life insurance product is issued and underwritten by Hong Kong Life. The premium to be paid by you would become part of the assets of Hong Kong Life and that you and your Policy are subject to the credit risk of Hong Kong Life. In the worst case, you may lose all the premium paid and benefit amount.

6. Market Risk

The amount of dividends (if any) of the Plan depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax; while the annual interest accumulation rate principally depends on the factors including investment performance and market conditions. Hence the amount of dividends (if any) and annual interest accumulation rate are not guaranteed and may be changed over time. The actual dividends payable and annual interest accumulation rate may be higher or lower than the expected amount and value at the time when the Policy was issued.

Investment returns include investment income and changes in asset value of the underlying investment. Performance of the investment return is affected by interest earnings and other market risk factors including, but not limited to, interest rate or credit spread movements, credit events, price fluctuations in invested assets, and foreign exchange fluctuations.

7. Inflation Risk

When reviewing the values shown in the Insurance Proposal, please note that the cost of living in the future is likely to be higher than it is today due to inflation.

Important Policy Provisions

8. Suicide

If the Initial Life Insured commits suicide, while sane or insane, within one (1) year from the Issue Date or date of any reinstatement, whichever is later, the liability of Hong Kong Life shall be limited to a refund of paid premiums to the Beneficiary without interest less any existing Indebtedness. In the case of reinstatement, such refund of premium shall be calculated from the date of reinstatement.

Upon the change of the Life Insured(s), if the New Life Insured commit suicide, while sane or insane, within one (1) year from the date of endorsement or date of any reinstatement, whichever is the later, the liability of Hong Kong Life shall be limited to (i)(a) a refund of the Total Premiums Paid for the Plan (without interest) or (i)(b) the Guaranteed Cash Value and Terminal Dividend (if any), whichever is greater, plus (ii) Accumulated Dividends and Interest (if any), less (iv) Indebtedness (if any).

9. Incontestability

The validity of the Policy shall not be contestable except for (i) the non-payment of premiums, (ii) fraud or (iii) misstatement of age and / or sex as specified in the Misstatement of Age and / or Sex provisions, after it has been in force during the lifetime of the Initial Life Insured for two (2) years from the Issue Date or the date of any reinstatement, whichever is later. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

Upon the change of the Life Insured, Hong Kong Life shall not contest the validity of the Policy after the change has been in force during the lifetime of the New Life Insured for two (2) years from the date of endorsement or date of any reinstatement, whichever is the latest, except for (i) the non-payment of premiums, (ii) fraud or (iii) misstatement of age and / or sex as specified in the Misstatement of Age and / or Sex provisions. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

10. Automatic Termination

The Plan shall terminate automatically:

- i. upon the death of the Life Insured (provided that there is no named and surviving Contingent Life Insured who will become the new Life Insured pursuant to the “Designation of Contingent Life Insured” clause of the Plan); or
- ii. if and when the Principal Amount of the Plan is allocated to Designated Policy(ies) pursuant to the “Designation of Contingent Life Insured” clause of the Plan; or
- iii. if and when the Plan matures or is fully surrendered (including the full surrender triggered for the payment of Incapacity Benefit as specified in the Incapacity Benefit clause); or
- iv. (applicable to 2-year Premium Payment Term) if and when a premium remains unpaid at the end of the Grace Period as specified in the General Provisions of the Policy; or
- v. (applicable to 5/10-year Premium Payment Term) if and when a premium remains unpaid at the end of the Grace Period as specified in the General Provisions of the Policy unless Automatic Premium Loan applies; or
- vi. if and when the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value; or
- vii. (applicable to 5/10-year Premium Payment Term) if and when the Guaranteed Cash Value less Indebtedness (if any) is less than the premium required to maintain the Policy up to the next premium due date as specified in the Automatic Premium Loan clause; or
- viii. upon the Change of Policy Currency as specified in Change of Policy Currency Option clause.

Others

11. Insurance Costs

The Plan is an insurance plan with a savings element. Part of the premium pays for the insurance and related costs (if any).

12. Potential Fees and Charges

If the premium refund or the payout benefits is not in HKD, USD or RMB, the refund or the payout may only be made in the form of a telegraphic transfer and relevant fees and charges may apply. Such fees and charges will be deducted from the premium refund or the payout benefits by the sending bank and receiving bank. The amount of fees and charges will vary depending on the sending bank and receiving bank designated by the customer. For details of the fees and charges, you should refer to Hong Kong Life and the designated receiving bank.

13. Cooling-off Period

If you are not satisfied with your Policy, you have a right to cancel it within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid (in the original payment currency) to Hong Kong Life without any interest. A written notice signed by you should be received directly by Hong Kong Life Insurance Limited at 15/F Cosco Tower, 183 Queen's Road Central, Hong Kong within the cooling-off period (that is, the period of 21 calendar days immediately following either the day of delivery of the Policy or the Cooling-off Notice to you or your nominated representative (whichever is the earlier)). After the expiration of the cooling-off period, if you cancel the Policy before the end of the term, the projected Total Surrender Value (if applicable) may be less than the Total Premiums Paid.

14. Dividends

Hong Kong Life determines the amount of divisible surplus that will be distributed in the form of dividends. Dividends will be determined and distributed according to the Policy's terms and conditions and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of policies and payable at the termination of the policies.

The amount of divisible surplus depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax. Hence the amount of dividends is not guaranteed and may be changed over time. The actual dividends payable may be higher or lower than the expected amount at the time when the policies were issued. The withdrawal of dividends will decrease the Total Surrender Value and Total Death Benefit of the Policy.

Investment returns include investment income and changes in asset value of the underlying investment. Performance of the investment return is affected by interest earnings and other market risk factors including, but not limited to, interest rate or credit spread movements, credit events, price fluctuations in invested assets, and foreign exchange fluctuations.

15. Partial Surrender

In case of Partial Surrender, the Guaranteed Cash Value and Terminal Dividend of the Policy will be decreased accordingly. This will also decrease the Principal Amount, Total Surrender Value, Total Death Benefit, Annual Dividend, premium, Total Premiums Paid and other benefits (if applicable) of the Policy.

16. Policy Loan

After the Plan has acquired a Guaranteed Cash Value and while the Policy is in force, the Policyowner may, upon the sole security and satisfactory assignment of the Policy to Hong Kong Life, apply for a Policy Loan from the Plan. Any loan on the Policy shall bear interest at a rate declared by Hong Kong Life from time to time. Interest on the loan shall accrue and compound daily from the date of loan. The Policy Loan Interest Rate is not guaranteed and will be changed from time to time. The loan and the interest accrued thereon shall constitute Indebtedness against the Policy. Interest shall be due on each Policy Anniversary subsequent to the date of loan. In the event that the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value, the Policy will terminate. Any Policy Loan and accrued loan interest may reduce the Total Surrender Value and Total Death Benefit of the Policy.

Dividend Policy

Hong Kong Life offers a comprehensive range of life insurance products which provide both guaranteed and non-guaranteed benefits to the Policyowners depending on the specific features of different products.

The guaranteed benefits generally include the insurance coverage payable on death, maturity, or disablement as well as guaranteed cash value for loan or Policy cancellation. The non-guaranteed benefits are the dividends (including Annual Dividend and Terminal Dividend) and rate of interest (referred to as “interest accumulation rate”) on Annual Dividend and other cash payments left on deposit under a Policy. The rate of interest may vary at the discretion of Hong Kong Life. Past dividends record is not indicative of future performance.

The amount available for distribution as dividends to relevant classes of Policyowner is determined by the Appointed Actuary of Hong Kong Life in accordance with Hong Kong Life’s internal dividend management. The amount depends on both the emerging experience and the future best estimate assumption including investment returns*, claim payments, policy persistency rates, operation expenses and tax. The Appointed Actuary will also report to the Board of Hong Kong Life on the Policy covering allocation of profits between shareholders and participating fund for approval, taking into account the principle of fair treatment of customers, and the equity between shareholders and Policyowners.

Dividends will be determined and distributed according to the Policy’s dividend provision and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of Policies and payable upon termination of the Policies.

As stated, the amount of dividends will vary according to the emerging experience of the above factors and types of the products. Hong Kong Life applies a smoothing approach in relation to the distribution of the dividends. It will only be modified if the actual experience is significantly different from expected or if the future expectation is changed.

Policyowners may also choose to leave their Annual Dividend or other cash payments with Hong Kong Life to earn interest at a rate determined by Hong Kong Life based on its investment performance and market conditions. As a consequence, the interest accumulation rates are not guaranteed and may be adjusted from time to time.

* Investment returns include investment income and changes in asset value of the underlying investment. Performance of the investment return is affected by interest earnings and other market risk factors including, but not limited to, interest rate or credit spread movements, credit events, price fluctuations in invested assets, and foreign exchange fluctuations.

Investment Policy

The underlying investment is a dedicated fund managed by Hong Kong Life according to the investment mandate of participating fund specified in Hong Kong Life's internal investment guidelines. The fund's investments are mainly fixed income type securities with high credit rating and equity type investments.

Generally, the asset allocation strategy is that at least 30% of the fund's assets will be invested in fixed income type securities mainly issued in US and Asia Pacific, 0% to 70% invested in equity type investments, and 0% to 10% in cash, with relatively higher allocation in USD denominated assets. The target currency mix of the fund's investments will vary according to the currency mix of Hong Kong Life's liability in general. If the currency of the fund is different from the policy currency of the underlying policies, currency hedging may be used to manage the currency risk. Allocation of different asset classes will be reviewed regularly with considerations of the market conditions, economic outlook and global insights in order to generate sustainable long term returns.
